D - sleeve length	67 cm	69 cm	71 cm	73 cm	75 cm

* **Chest size** - measure circumference of your chest around the fullest part of the chest, just under your arms.

FITTING

- STANDARD FIT** ➤ *This jersey has a regular fit. The body and sleeves are a bit wider to allow you for wearing a base layer underneath when you ride during colder days.*
- SLIM FIT** ➤ *If you like slim fit jerseys, we recommend you choose one size smaller. Make sure that your jersey won't be too short for you. Check the length sitting on your bike in a riding position.*
- LOOSE FIT** ➤ *If you prefer loose fit jerseys, we recommend you choose one size bigger. Your jersey could be a bit longer than usual and you might look like you're dressed in your older brother's shirt. No worries - it will still be good for riding!*
- PROTECTORS** ➤ *Always use your protectors! This jersey is not designed to be used with full body armours. If you want to use back protectors or slim pads, we recommend you choose one size bigger jersey. If you want to use full body armour, choose the EVO jersey.*
- SLEEVES** ➤ *Extra long sleeves are designed for a usual riding position. Even with a very stretched body position the sleeves cover wrists. These wider sleeves let you wear slim elbow protectors.*
