

# SIZING GUIDE

## ROC LITE SHORTS

**i** If your waist size is between the shorts sizes (for example between M and L) we recommend you to choose the bigger size (L).

|                 | <b>XS</b>  | <b>S</b>   | <b>M</b>   | <b>L</b>   | <b>XL</b>  | <b>XXL</b>  |
|-----------------|------------|------------|------------|------------|------------|-------------|
| * Waist         | 70 - 75 cm | 75 - 80 cm | 80 - 85 cm | 85 - 90 cm | 90 - 95 cm | 95 - 100 cm |
| A - waist width | 37 cm      | 39 cm      | 41 cm      | 43 cm      | 45 cm      | 47 cm       |
| B - leg length  | 56 cm      | 58 cm      | 60 cm      | 62 cm      | 64 cm      | 68 cm       |
| C - hip width   | 48 cm      | 50 cm      | 52 cm      | 54 cm      | 56 cm      | 58 cm       |

\* **Waist size** - measure circumference of your waist 1cm below your belly button.

## FITTING

- STANDARD FIT** ➔ Those shorts have a loose fit and are a bit wider in the legs and hips, but they're not baggy. They're designed to be as comfortable as possible and not hinder your movements. They are the right balance between looking great and feeling comfortable while riding.
- PROTECTORS** ➔ Legs lengths are designed for using with or without knee protectors. They have precisely fitted length to cover your knees. On the other hand, they are not too long, so they won't catch on your protectors while pedaling.
